December 31—End of year. Big investments in Dollings 7 per cent securities. Tax exempt.

Another year is gone. Nineteen-twenty has taken its place among the thousands that have found the silent abode.

Nineteen-twenty-one is here to take the place of the old year, abounding in peace, plenty and financial prosperity; let it be greeted with glad hearts and open hands, with joyous songs and praises to the giver of all good things, while we consign its predecessor to the silent land of the dead and the beautiful:

"Where shall the dead and the beautiful sleep?

Where wild flowers bloom in the valley deep;

Where the sweet robes of spring may softly rest;

In purity over the sleepers' breast.

Where is heard the voice of the sinless dove,

Breathing notes of deep undying love,

Where no column proud in the sun may glow,

To mock the heart that is resting below,

Where pure hearts are sleeping forever blest,

Where wondering Peris love to rest,

Where the sky and earth are softly fair,

Leave them there, leave them there."
